

What we fund:

1. Additional equipment for sports, educational and leisure infrastructure of Russian NGOs if the Presidium decides to support the project under which such equipment is planned:

- individual simulators, including those intended for children and young adults with multiple developmental disabilities.
- interactive whiteboards.
- communication tools.
- computers and other equipment intended for use in the educational or developmental process.
- special furniture.
- sports equipment.
- licensed software.

The terms of use of the purchased equipment by the Beneficiary at the end of the project are fixed in an Additional Agreement to the Donor Agreement.

2. Development of specialized software and online materials (webinars, presentations, etc.) if the developers transfer their ownership rights to the Foundation.

3. Purchase of equipment for professional training of young adults with disabilities:

- sewing.
- carpentry.
- pottery.
- other equipment if the Presidium decides to maintain the project.

The terms of use of the purchased equipment by the Beneficiary at the end of the project are fixed in an Additional Agreement to the Donor Agreement.

We do not fund:

1. Purchase of individual life and activity support equipment:

- hearing aids.
- wheelchairs.
- glucose meters.
- other.

2. Purchase and maintenance of vehicles with the exception of payment for gasoline and current car maintenance expenses, which CSS' Partner (NGO or non-profit organization) bears as part of the implementation of the joint project.

3. Purchase of commercial, service, kitchen, agricultural and other industrial equipment:

- coffee machines.
- scales.
- shredding devices.
- kitchen stoves.

- ventilation systems.
- cash registers.
- greenhouses.
- apiaries.
- snow plowing equipment.
- other if they are not a necessary part of a large long term project implemented with the support of CSS (for example, the construction and equipping of a multifunctional complex for assisted living and assisted employment in Zaluzhye).

4. Complete equipment of sports, educational and leisure infrastructure facilities from scratch, as well as building renovations and subsequent appliances.
